

CRITICAL RISKS

SCOPE: *This document represents best practice advice available and considered pertinent after consultation within the membership and incorporating external advice. It is intended as a set of guidelines for consideration in developing a procedure to recognise and manage risk.*

1. INTRODUCTION

The top 5 Critical Risks to the malting industry were first formally evaluated by members in January 2019. It was subsequently agreed that these would be reviewed annually at April meetings and updated accordingly, to ensure continued relevance.

TOP 5

- 1. Confined Space**
- 2. Fire & Explosion**
- 3. Slips, Trips & Falls**
- 4. Transport/Pedestrians**
